

Police Report – October 2015

The national website which provides you with crime statistics for your area can be found at - <http://www.police.uk/leicestershire/L55/>

Crime Alert

In October we received 336 calls from members of the public relating to incidents across the three parishes.

Burglaries continue to occur across all three parishes with various items being taken. As always we stress the importance of ensuring that your home security is as good as you can make it. Consider window shock alarms which can be a good deterrent against anyone breaking in through windows. These are a cheaper option to a full alarm system and can be found at most hardware stores and online. Timers to control lamps to have the lights come on and off whilst you are not there also give the impression that someone is in.

Work vans still remain a target to offenders, be security aware and don't offer your vehicle as an easy target. Park in positions that are difficult for criminals to get into your vans and if possible, park under light areas or/and where there is CCTV.

Anti-Social Behaviour

We have had 10 reports of anti-social behaviour in October. Consultations were completed in the area of Forest House Lane in relation to ASB being caused around the shop. This highlighted that residents thought that overall whilst there had been some incidents over the summer the issue has got better apart from youths causing a lot of noise around the location. The beat team will continue to work around this.

Beat Initiatives

In response to the increase of arson incidents around Glenfield the beat team has made all the shops in Glenfield aware of the issue in a hope to reduce accelerants sold to possible perpetrators in relation to this. We have liaised with the Fire and Rescue Service who have identified further reports we were not aware of. They are now also monitoring the village and will make us aware of any patterns that they identify. Following

identifying some paperwork in some of the fires we have been liaising with neighboring beat teams and have been working to establish potential suspects. We have also conducted consultations with members of the public in the areas affected by the issue but no further information was forthcoming although it raised the issue and residents should now be more aware to report suspicious behaviour to us. We will be looking to engage with any local youth groups to identify potential suspects and engage with the youths regarding the issue.

Street Surgery and Consultations

We will be holding a street surgery on Falcon Close and Kestral Close, Leicester Forest East on Wednesday 4th November between 2pm - 4pm.

If you have any policing concerns in your area please come along to the surgery where one of the local officers will be pleased to discuss them with you. The surgery is open to anyone who lives or works in the local area.
